

NOUN CLAUSES

1. Noun clause nima?

Noun clause — gap ichida OT vazifasini bajaradigan ergash gap. Relative clause otni aniqlaydi, noun clause esa otning o'rnida turadi. Bu ikkisining eng asosiy farqi.

TEKSHIRISH USULI: ergash gapni “**it**”, “**something**” yoki “**the news**” so'zi bilan almashtirib ko'ring. Gap buzilmasa — bu noun clause.

- ▶ *I know **that he lied**.* → *I know **it**.* — noun clause = object
- ▶ ***What he said** was true.* → ***It** was true.* — noun clause = subject

Noun clause hech qachon vergul bilan ajratilmaydi va uni gapdan olib tashlab bo'lmaydi — u gapning bo'lagi.

2. Gapdagi vazifalari

Vazifasi	O'rni	Misol
Subject (ega)	Gap boshida	That he resigned surprised everyone.
Object of verb	Fe'ldan keyin	She admitted that she was wrong .
Object of preposition	Predlogdan keyin	We talked about what happened .
Subject complement	be fe'lidan keyin	The problem is that we have no money .
Adjective complement	Sifatdan keyin	I am afraid that he will refuse .

3. Uch turi va bog'lovchilari

Turi	Bog'lovchi	Misol
that-clause	that (tushishi mumkin)	I think (that) she is right .
wh-clause	what, who, whose, which, when, where, why, how, how long/many/much	I don't know where she lives . Do you know how you should go ? I can't tell you why he is here .
yes/no clause	whether, if	I wonder whether Sodiqjon passes the exam.

Manba savol turi qanday bo'lsa, bog'lovchi ham shunga mos bo'ladi: wh-savol → wh-so'z; yes/no savol → whether/if.

- ▶ *Where does he live?* → *I don't know **where he lives**.*
- ▶ *Does he live here?* → *I don't know **whether he lives here**.*

4. SO'Z TARTIBI — eng ko'p xato qilinadigan joy

Noun clause ichida SAVOL TARTIBI ISHLATILMAYDI. Darak gap tartibi: bog'lovchi + EGA + KESIM. = (**that/wh...**+S +aux + **Verb** + C ...) do / does / did yordamchi fe'li butunlay tushib qoladi.

✗ *I don't know where does he live.*

✓ *I don't know where he lives.*

✗ *Do you know what is the time?*

✓ *Do you know what the time is?*

✗ *Tell me why did she leave.*

✓ *Tell me why she left.*

Bitta istisno: so'roq so'zining o'zi ega bo'lsa

Agar wh-so'z ergash gapning egasi bo'lsa, tartib o'zgarmaydi — chunki u allaqachon to'g'ri:

✓ *I don't know **who broke the window**.* — who = ega

✓ *Nobody knows **what happened**.* — what = ega

Savol belgisi masalasi

✓ *Do you know **where he is**?* — bosh gap savol → savol belgisi

✓ *I wonder **where he is**.* — bosh gap darak → nuqta

5. that ni qachon tushirish mumkin?

TUSHIRISH MUMKIN	TUSHIRISH MUMKIN EMAS
say, think, know, believe kabi fe'llardan keyin (object)	Gap boshida ega bo'lsa
Og'zaki va neytral uslubda	Rasmiy yozma uslubda tavsiya etilmaydi
I'm sure / glad / afraid (that) ...	so that, in order that, now that kabi bog'lovchilarda
Bitta qisqa ergash gapda	Ikki ergash gap bog'langanda ikkinchisida saqlanadi

✓ *She said (that) she was tired.*

✗ *He lied is obvious.* — ega bo'lgan that tushmaydi

✓ *That he lied is obvious.*

✓ *He said that he was tired and that he wanted to go home.* — ikkinchi that saqlanadi

6. whether va if — farqi

Ikkalasi ham “-mi” ma'nosini beradi, lekin if ning ishlatilishi cheklangan.

Holat	whether	if
Fe'ldan keyin object	✓	✓
Predlogdan keyin	✓	X
Gap boshida ega bo'lsa	✓	X
or not bevosita yonida	✓	X
to-infinitive oldidan	✓	X
Rasmiy uslub	✓	kamroq

✓ *It depends on **whether** he agrees.* — predlogdan keyin

✓ ***Whether** he agrees is not my problem.* — ega

✓ *I don't know **whether or not** to accept.*

✓ *I don't know **whether** to accept the offer.*

X *It depends on **if** he agrees.*

X *I don't know **if** to accept.*

Eslatma: “I don't know if he will come” — to'g'ri va tabiiy. if faqat yuqoridagi to'rt holatda taqiqlanadi.

7. Wh-so'z + to-infinitive (qisqargan shakl)

Ega ikkala gapda bir xil bo'lsa va ma'noda “**kerak / mumkin**” tushunchasi bo'lsa, noun clause qisqaradi.

- ▶ *I don't know **what I should do.** → I don't know **what to do.***
- ▶ *She explained **how we could fix it.** → She explained **how to fix it.***
- ▶ *He couldn't decide **whether he should stay.** → ...**whether to stay.***

MUHIM: why bu shaklda ishlatilmaydi va that-clause umuman qisqarmaydi.

X *I don't know **why** to go.*

X *I know **that** to do.*

8. Zamon moslashuvi (backshift)

Bosh gapdagi fe'l o'tgan zamonda bo'lsa, noun clause fe'li ham bir pog'ona orqaga suriladi.

Bevosita	→	Noun clause
is / are	→	was / were

Bevosita	→	Noun clause
works	→	worked
worked / has worked	→	had worked
will	→	would
can / may / must	→	could / might / had to

- ▶ “*I am busy,*” *he said.* → *He said **that he was busy.***

Backshift qilinmaydigan holatlar

- Umumiy haqiqat: The teacher said **that water boils at 100°C.**
- Hozir ham o'z kuchida bo'lgan holat: She said **she lives in Tashkent.**
- Bosh gap hozirgi zamonda bo'lsa: He says (**that**) **he is tired.**

9. Subjunctive — that + fe'lining asosiy shakli

Talab, taklif, buyruq bildiruvchi so'zlardan keyin **that-clause** ichida fe'l shaxsga qarab o'zgarmaydi: to'g'ridan-to'g'ri asosiy shakl (**bare infinitive=V1**) ishlatiladi. Inkori: **not + V1**.

Fe'llar

suggest, recommend, demand, insist, require, request, propose, urge, ask, order, command

Sifatlar (It is ... that ...)

- ✓ *It is essential that every student **be** present.* — ~~is~~ emas
- ✓ *She insisted that he **not be** told.* — inkor shakli
- ✗ *The board demanded that he **resigned** immediately.*

Britaniya uslubida ko'pincha **should** qo'shiladi: “demanded that he should resign”. Amerika uslubida **should** tushiriladi.

10. Ega bo'lgan noun clause va “it” bilan almashtirish

Uzun noun clause gap boshida og'ir eshitiladi. Shuning uchun uni oxiriga ko'chirib, o'rniga formal “it” qo'yiladi (extraposition).

- ▶ ***That he lied to us** is obvious.* → *It is obvious **that he lied to us.*** ikkinchisi tabiiyroq
- ▶ ***Whether he agrees** doesn't matter.* → *It doesn't matter **whether he agrees.***

Keng tarqalgan qoliplar

- It seems / appears / happens that ...
- It is said / believed / reported / thought that ... (passiv xabar)
- It is a pity / a shame / no wonder that ...

Fe'lning moslashuvi

Noun clause ega bo'lganda fe'l DOIM birlikda bo'ladi — ergash gap ichida ko'plik so'zlar bo'lsa ham.

✓ *What we need **is** more chairs.*

✓ *Whether the students pass or fail **depends** on them.*

✗ *What we need ~~are~~ more chairs.* — og'zaki nutqda uchraydi, lekin testda xato

11. Predlogdan keyin noun clause

Predlogdan keyin wh-clause va whether-clause bimalol keladi, lekin **that**-clause kelmaydi.

✓ *I'm worried **about what** he will say.*

✓ *It depends **on whether** they agree.*

✗ *I'm worried **about that** he will leave.*

YECHIM: predlogni olib tashlang yoki “the fact that” qolipini ishlatib — I'm worried that he will leave. / I'm worried **about the fact** that he will leave.

Istisnolar: **in that, except that, save that** — bu ikki bog'lovchi that bilan ishlatiladi. “The plan is good **except that it costs too much.**”

12. Appositive noun clause — otdan keyingi izoh

Ba'zi mavhum otlardan keyin ularning mazmunini ochib beruvchi that-clause keladi: fact, idea, belief, news, rumour, claim, hope, possibility, suggestion, question.

▶ *The news **that the factory would close** shocked the town.*

▶ *The possibility **that we may lose** has not been discussed.*

question va issue otlaridan keyin whether ishlatiladi: “the question whether the law applies”.

FARQI: “The news that shocked the town” — relative clause (that = ega). “The news that the factory would close” — noun clause (that bo'sh bog'lovchi, undan keyin to'liq gap keladi).

13. Noun clause va relative clause — solishtirma jadval

Belgi	NOUN CLAUSE	RELATIVE CLAUSE
Vazifasi	Otning o'rnida turadi	Otni aniqlaydi
Antecedent	Yo'q	Bor (oldidagi ot)
